

*Increase your chances of getting your pet back  
if he or she gets lost*

***Our gift to your pet:  
A FREE MICROCHIP  
during the month of December***

Accidents and emergencies can happen at any time – be prepared! A microchip, about the size of a rice kernel, takes only seconds to be painlessly injected into your pet and can be read by scanners in virtually all animal shelters to quickly reunite you with your lost pet.
